<b>Paper 4:</b> Corporate and Allied Laws (100 Marks)	<b>Paper 8:</b> Indirect Tax Laws (100 Marks)

**The Level of Knowledge expected is Advanced Knowledge**

### Why is it important to be coached by Chartered Accountants in practice?

The CA Course is dynamic and application oriented. The institute requires students to have a practical insight into concepts. More than 60% of the questions in the examination conducted by the institute require a fine practical understanding of the syllabus.

As you would know,

- The Accounting Syllabus is undergoing massive changes as IFRS (International Financial Reporting Standards) are being introduced in India)
- The Taxation Syllabus is undergoing massive changes as the Direct Tax Code will soon replace the Indian Income Tax Act.
- The Law syllabus has undergone a change with Companies Act, 2013 in place.
- The Indirect Tax Syllabus is undergoing changes since the Goods and Service Tax will soon replace the existing indirect tax laws ( Service Tax, VAT etc)

Only Chartered Accountants who are in constant touch with the industry can do justice to a dynamic and challenging syllabus like the above.

### Faculty at Pinnacle Education

The faculty at Pinnacle Education consists of a team of ranker chartered accountants, Company Secretary, Lawyers and so on, each experienced in diverse areas such as Finance, Accounting, Taxation and Compliances. The synergy of theoretical understanding and practical insight which we bring to table goes a long way with a student.

The faculty has a combined experience of over 50 years and has trained over 1000 chartered accountants till date.
