Online learning has been an altogether a different experience. The professor is a very dedicated and an excellent teacher. Even though our class is online she keeps it interactive. I thoroughly enjoy the class and am thankful to Pinnacle Education for making learning easily available during this period of crisis :)

I really appreciate the way the tutor is explaining the concept of BS to students. Sanjini has developed liking for the subject. Also keeping students safety in mind taking classes online is a good initiative taken by Pinnacle at a right time, so the children are occupied constructively during quarantine period. Thank you Team Pinnacle!
